

HR Analytics Dashboard | Power BI Project

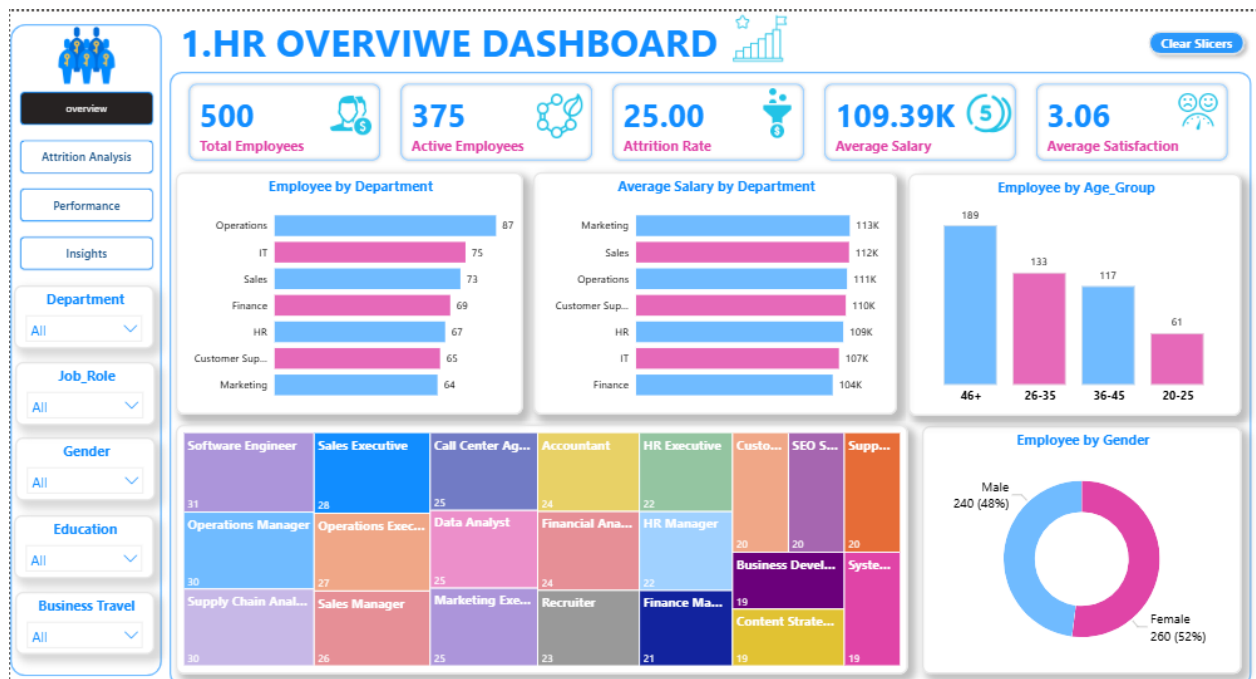

Project Overview

This Power BI HR Analytics Dashboard provides a complete analysis of employee data, attrition trends, performance tracking, and workforce insights. The dashboard is designed with interactive visuals, slicers, and navigation buttons to help organizations make data-driven HR decisions.

Dashboard Pages

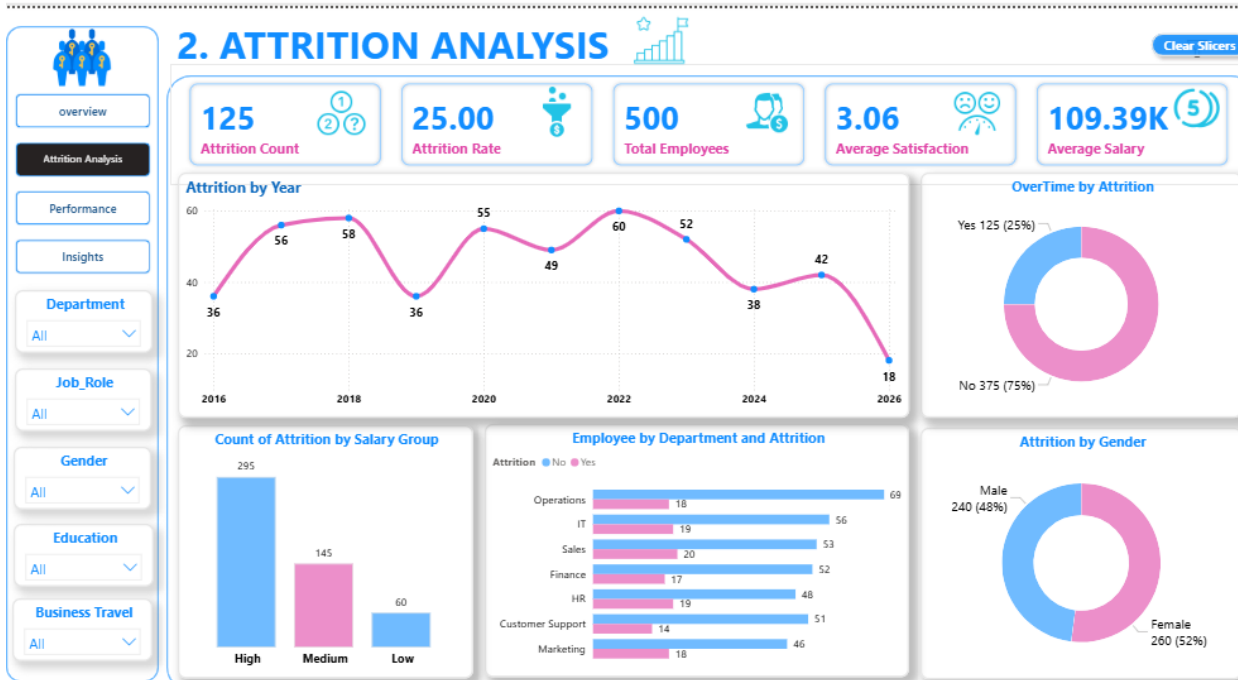

1. HR Overview Dashboard

This page provides a high-level overview of employees, attrition rate, salary analysis, employee satisfaction, department distribution, age-group analysis, and gender insights.

2. Attrition Analysis Dashboard

This page focuses on employee attrition trends, overtime analysis, salary-group attrition, department-wise attrition, and gender-based attrition insights.

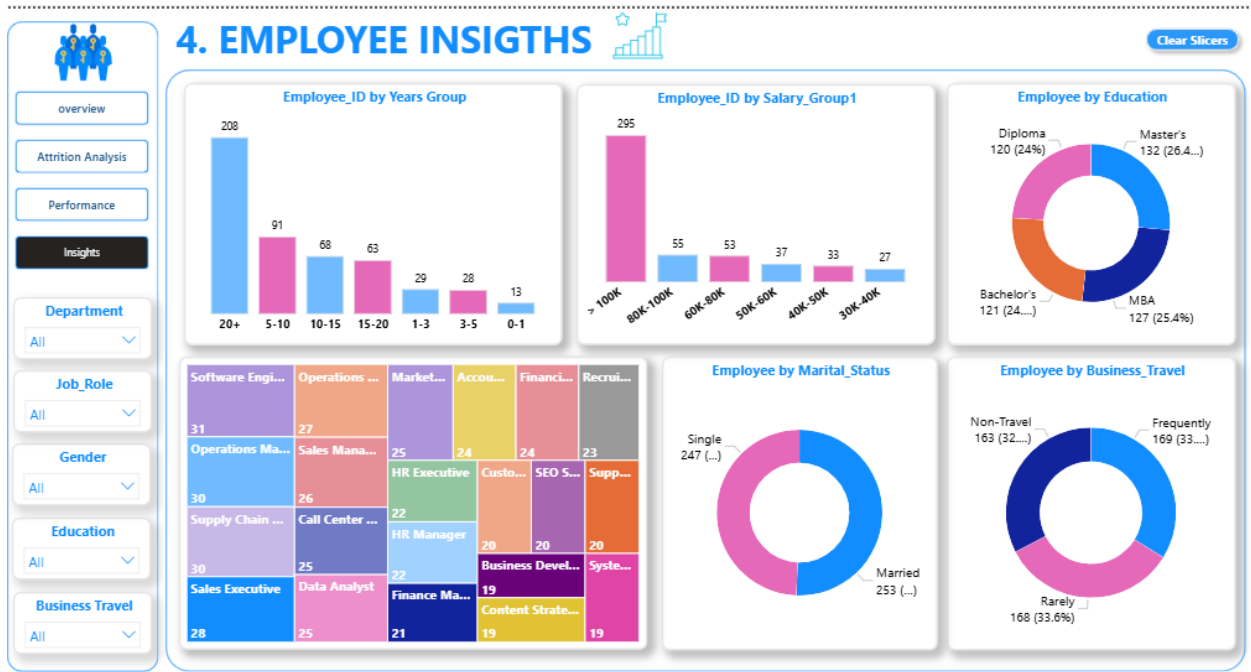

3. Employee Performance Dashboard

This page analyzes employee performance ratings, training hours, department performance, job satisfaction impact, and top performers using interactive visualizations.

4. Employee Insights Dashboard

This page provides deeper insights into employee education, marital status, business travel, salary groups, and years-group analysis for better workforce understanding.

Conclusion

This HR Analytics Dashboard helps organizations understand employee behavior, track attrition trends, improve workforce performance, and support data-driven HR decisions.
